TEST CASES IMPLEMENTATION.

Feature: Login

Title: Login with valid credentials

Preconditions:

- User is on the Login page
- Valid user exists (standard_user)

Test Data:

- Username: `standard_user`
- Password: `secret_sauce`

Steps:

1. Navigate to the Login page

2. Enter a valid username
3. Enter a valid password
4. Click the Login button

Expected Result:

- User is redirected to the Products page (/inventory.html)
 - Product list is displayed successfully
-

Title: Login with invalid password

Preconditions:

- User is on the Login page

Test Data:

- Username: `standard_user`
- Password: `invalid_password`

Steps:

1. Enter a valid username
2. Enter an invalid password
3. Click the Login button

Expected Result:

- Error message is displayed
 - User remains on the Login page
-

Title: Login with invalid user

Preconditions:

- User is on the Login page

Test Data:

- Username: `standard_user`
- Password: `invalid_password`

Steps:

1. Enter an invalid username
2. Enter a valid password
3. Click the Login button

Expected Result:

- Error message is displayed
 - User remains on the Login page
-

Title: Login with locked out user

Preconditions:

- User is on the Login page
- Locked user exists

Test Data:

- Username: `locked_out_user`
- Password: `secret_sauce`

Steps:

1. Enter locked user credentials
2. Click the Login button

Expected Result:

- Error message “Sorry, this user has been locked out.” is displayed
 - User is not logged in
-

Title: Login with locked out user

Preconditions:

- User is on the Login page

Test Data:

- Username: `empty`
- Password: `empty`

Steps:

1. Leave username field empty
